

PROTACHEM-GLUCOSIDES

All Glucosides are made from natural and renewable raw materials and are readily biodegradable.

Protachem CG
Coco glucoside

Coco-glucoside is a mild vegetable-based non-ionic surfactant derived from coconut oil and glucose from corn. Used as a mild cleanser in cosmetic formulas especially for individuals with sensitive skin.

Protachem DG
Decyl glucoside

Decyl glucoside is a mild non-ionic cleanser used in cosmetic formularies including in products for individuals with a sensitive skin. DG is produced by the reaction of glucose from corn starch with the fatty alcohol capric alcohol, which is obtained from coconut oil.

Protachem LG
Lauryl glucoside

Lauryl glucoside is a non-ionic surfactant suitable for various cleansing preparations, Very mild to skin and mucus membranes, and offers synergistic effects with other surfactants that reduces irritation and improves foam quality.
